Atlanta Garden Maintenance – Floralis Garden Design

All aspects of this property's weekly maintenance services are managed by our firm. We have also designed and installed the perennial garden borders and the permanent and seasonal container plantings, which are changed out in April and October. The perennial garden at the rear lawn runs parallel to the rear of the home.

### JUDGES' COMMENTS:

Plants look very healthy despite radiant heat of wall and potential lack of air movement. This is very difficult to maintain, so kudos for that.
