Front Landscape Renovation – Floralis Garden Design (before)

This project transformed an outdated façade to a fresh landscape beaming with curb appeal. Our firm designed, managed and installed the front and side yard landscape renovations. The existing front landscape had a mix of grade changes, low walls, overgrown plant material, and bare landscape bed areas.

Front Landscape Renovation – Floralis Garden Design

Our design removed the front lawn terrace concept and the front landscape beds and re-graded the lawn areas for a simple, clean, approach to the home. A new bluestone walkway and landing were added along the front foundation, paired with containers to flank and accent the front door. New foundation plantings were installed to add to the updated, fresh look.

Front Landscape Renovation – Floralis Garden Design (before)

The front of the house and side door entry had an existing driveway, and overgrown and out-dated plantings.

Front Landscape Renovation – Floralis Garden Design

What a difference. The side door entry and front foundation with new driveway, new bluestone walkway, entry column, containers, and foundation plantings.

Front Landscape Renovation – Floralis Garden Design (before)

The side door entry, close-up, shows the tired landscape and old architectural features.

Front Landscape Renovation – Floralis Garden Design

The side door entry was renovated with a new walk and landing. We planted this area with a mix of evergreen shrubs and garden perennials to soften the hard lines. Outdoor lighting was renovated to accent the new architectural elements.

Front Landscape Renovation – Floralis Garden Design

The main difficulty of this project was the goal to pair the landscape with the architecture of the home. The homeowners have given us feedback that they are overjoyed with the transformation.

JUDGES' COMMENTS:

Great job with front yard wall removal, grading, turf installation. Side entry is fresh, clean inviting. Nice use of containers - good sense of scale and nice variety of plants. Good before and after photos.
