Remote Water Management

Donn Mann – dmann@rainbird.com

The Intelligent Use of Water.™

Who can tell me what is happening at your largest customer's site right now?

© Rain Bird Corporation

Business Solutions

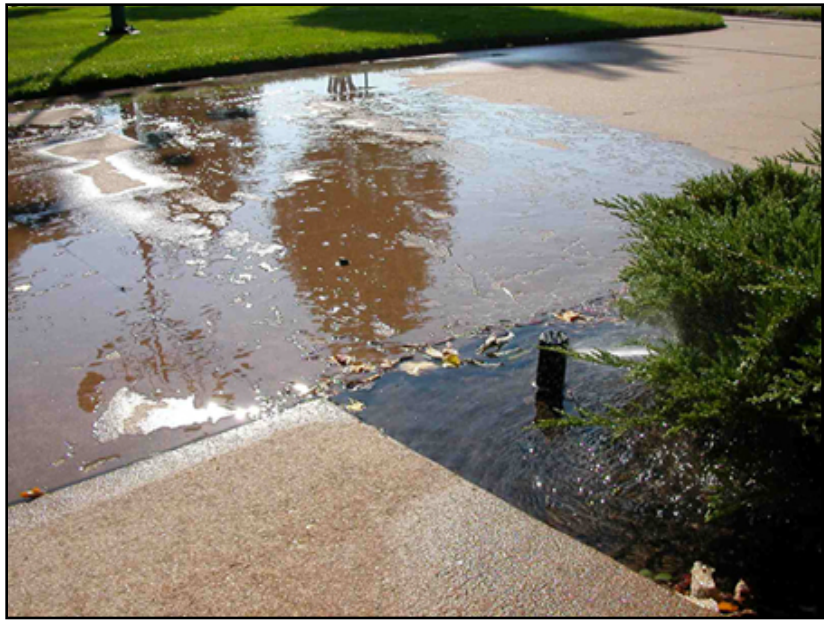
It's Monday Morning

Ring – Ring – Ring

The property manager is on the line with a few problems to report.

© Rain Bird Corporation

A valve has been weeping or leaking.



© Rain Bird Corporation

Somebody turned off the water.

$50,000 worth of trees are now dead.

© Rain Bird Corporation

The irrigation has been on.

And it rained all weekend.

© Rain Bird Corporation

It is going to freeze tonight.

LIABILITY

© Rain Bird Corporation

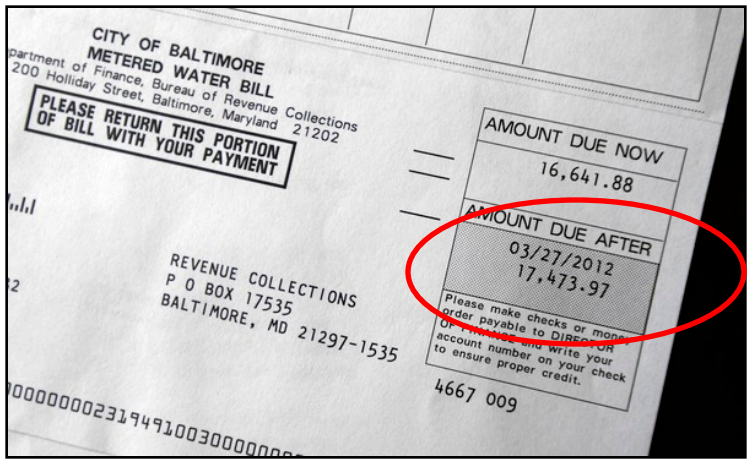
A broken mainline has been running all weekend.

Sure… finding it will be this easy.

© Rain Bird Corporation

Our walkway is now a pond because “your guy” ran over a sprinkler!

© Rain Bird Corporation

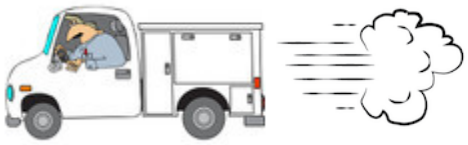


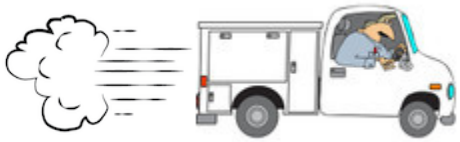
Why is our water bill $16,000?!

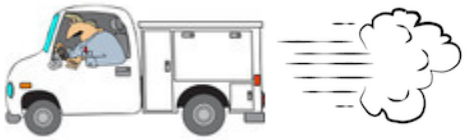
© Rain Bird Corporation

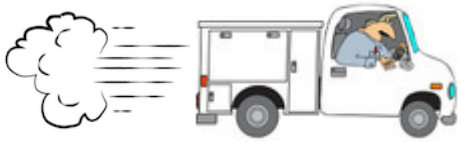
What Do You Do?

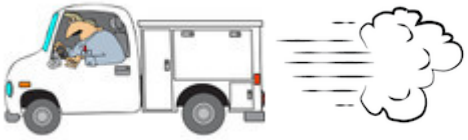
© Rain Bird Corporation

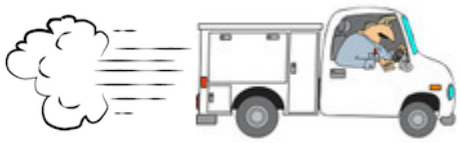












© Rain Bird Corporation

Driving all over to get to your sites

© Rain Bird Corporation

Putting profitable jobs on **Hold**

© Rain Bird Corporation

Investigating the source of a leak

© Rain Bird Corporation

Troubleshooting bad wire splices

© Rain Bird Corporation

Replacing plant material at *your* cost

© Rain Bird Corporation

Standing around watching and waiting

© Rain Bird Corporation

While your crews are **busy** putting out fires…

You are losing sleep & $…

© Rain Bird Corporation

Thinking of the **costs** you are incurring…

© Rain Bird Corporation

What will you have to **give away** in order to appease your customer?

© Rain Bird Corporation

What **impression** are you making on the community, HOA board and property manager?

© Rain Bird Corporation

What's at **risk** due to your reactive nature?

© Rain Bird Corporation

And what about your **profit** ?

© Rain Bird Corporation

© Rain Bird Corporation

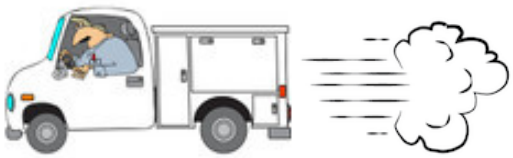
How much time will you spend changing programs this year?

© Rain Bird Corporation

Who here has driven back to a site because you couldn’t remember if you left the controller **OFF** or in **AUTO?**



© Rain Bird Corporation

You're walking a site with a customer and come across a dry spot.

"Wait 5 minutes and I'll run to the controller and turn this station on," you say.

© Rain Bird Corporation

Are you sure you've been watering?

Someone may have shut off the backflow…
